

DustEthic
Uniting Digital Dust for Global Change

project
IN ACTIVE DEVELOPMENT

Turn your crypto dust into useful micro-donations

DustEthic - open, non profit standard for traceable donations to NGOs

At a glance:

- Aggregate "dust" and trigger verifiable micro-donations
- Open and transparent - built for donors, wallets, relayers, NGOs
- Goal: simplicity, traceability, impact

Our
VISION FOR THE PROJECT

The screenshot shows the DustEthic wallet interface. At the top, the wallet balance is 192.01 CHF, with a daily change of +8.56 CHF (+4.46%). Below the balance are buttons for Buy, Swap, Bridge, Send, and Receive. The interface displays a list of aggregated dust tokens, each with a name, logo, and current value in CHF. Each token has a 'Donate these dusts' button and a dropdown menu to 'Select an NGO...'. The tokens listed are:

- USDC (USDC - Base): 0.69 USDC = 0.69 CHF - NGO to be set
- Arbitrum (ARB - Arbitrum One): 0.4201 ARB = 0.12 CHF - NGO to be set
- Optimism (OP - Optimism): 0.091 OP = 0.05 CHF - NGO to be set
- Ethereum (ETH - Ethereum Mainnet): 109.14 CHF (0.03364 ETH), +3.40%
- Chainlink (LINK - Mantle on Ethereum): 0.00 CHF (59.52427 MNT), +6.27%
- Arbitrum One (ARB - Arbitrum One): 0.12 CHF (0.4201 ARB), -1.20%
- Optimism (OP - Optimism): 0.05 CHF (0.091 OP), +0.50%
- Base (USDC - Base): 0.69 CHF (0.69 USDC), +0.62%
- Cronos (CRO - Cronos): 0.00 CHF (0 CRO), +0.99%

At the bottom, there is a 'Donate all my dusts' button and a note: 'Gas-aware aggregation — fee preview and batch posting by the relayer. Demo mockup. Example NGOs are shown for understanding only and are not DustEthic partners at this stage. Note — Indicative simulation. Gas and commission figures are educational.'
